CRUEL: A follower of Christina Gallagher was kept in a room in the House of Prayer (below) and denied medical attention

HOUSE OF PAIN

Follower left in agony for three days at Achill church

EXCLUSIVE By JIM GALLAGHER

A MAN left lying in agony at the controversial House of Prayer for three days after smashing his leg has said: "They treated me like a dog."

Gardai are to probe claims that the former follower of Christina Gallagher's cult chapel in Achill Co Mayo was denied hospital care after falling from a ladder while working there in April.

The pensioner told the *Sunday World*: "They put my life in danger. There is no love or compassion there. They locked me away in a room and ignored my calls for a doctor. I was in agony."
